

Guardsman

Innovative ideas and creative designs in the modern architectural environment have produced a requirement for new ideas in boundary and perimeter protection.

The **Guardsman** Range has been designed to complement and fulfil the requirements and need for aesthetic fencing, whilst still providing a robust and secure fence; deterring boundary and perimeter intrusion.

The vertical panel infill can be supplied as tubular or box section to the clients requirements, with both options passing through the horizontal rail. The end user benefits from increased security, as this method of securing the vertical infill offers a high resistance to attack from offenders and anti-social behaviour.

Manufactured in our state of the art production Facility based in Stoke On Trent, our client has the option to specify the **Guardsman** product in different styles-

Chisel Top

Data Sheet FGM

Guardsman

As with most Paramount ranges, the choice of bolt down or embedded posts is available at the time of order. Guardsman fence panels are manufactured for installation over level ground. If the proposed site is not level, please contact our sales office for a site survey and advise us prior to order. Fence panels can be raked to suit individual site conditions subject to site survey, and manufactured accordingly.

Post fixings- **Guardsman** is the ideal choice for fast low cost fast fence erection, with our optional fixing less design.

Our panels and posts can be fixed together by two different options:

- a) Channel rails- Using the traditional loose cleat and secure pin
- b) Box Section rails- Using a Welded Lug and Slip and Slide technique (No fixings required)

Secured with Optional Fixing Choice "A"

Guardsman is available with a compliment of matching manual and automatic gates to match the chosen specification. Choose from our popular vehicle or pedestrian range with a choice of locking options.

Finish: Galvanised to BSEN 1461 and available with optional powder coating in any RAL Colour.

Data Sheet FGM

Guardsman

Technical Data

Fence Height	Panel Size	Wall Section
Client Specify*	2.5m (Post centre's)	
	2.75m (Post centre's)	
		25.4mm OD Tube
		25mm SHS

RAL Colour chart- Optional powder coating can customise a fence into your own corporate colours, or will match with an existing or new powder coated fence. (Colours are provided for reference only, please ask for a colour chart) We also offer a range of BS Colour references on request
