

## Palisade- The Ultimate Deterrent

Palisade is widely accepted as the industry leader to protect and deter general attack from all types and conditions of intrusion.

Paramount **Palisade** is produced with two distinct alternative pale profiles, and is available with a wide range of paling head options.

Available with a wide range of specifications to offer protection for differing levels of perceived risk, starting from low risk for demarcation purposes through to our high security Portcullis Variant. Our sales team are happy to discuss and assist with providing a precise specification to meet every customers expectations.

Our Design Office are pleased to assist clients with specific fencing problems, and offer solutions using the latest CAD based drawing techniques and facilities.

The **Palisade** family of fencing is designed to provide a formidable barrier; and is manufactured from hot formed and cold rolled substantial steel sections. These sections offer both strength and rigidity combined with a long life span.

## Palisade- The Ultimate Deterrent

Paramount has over 25 years experience in manufacture and support for Palisade fencing systems, and can provide approved specification fencing for-

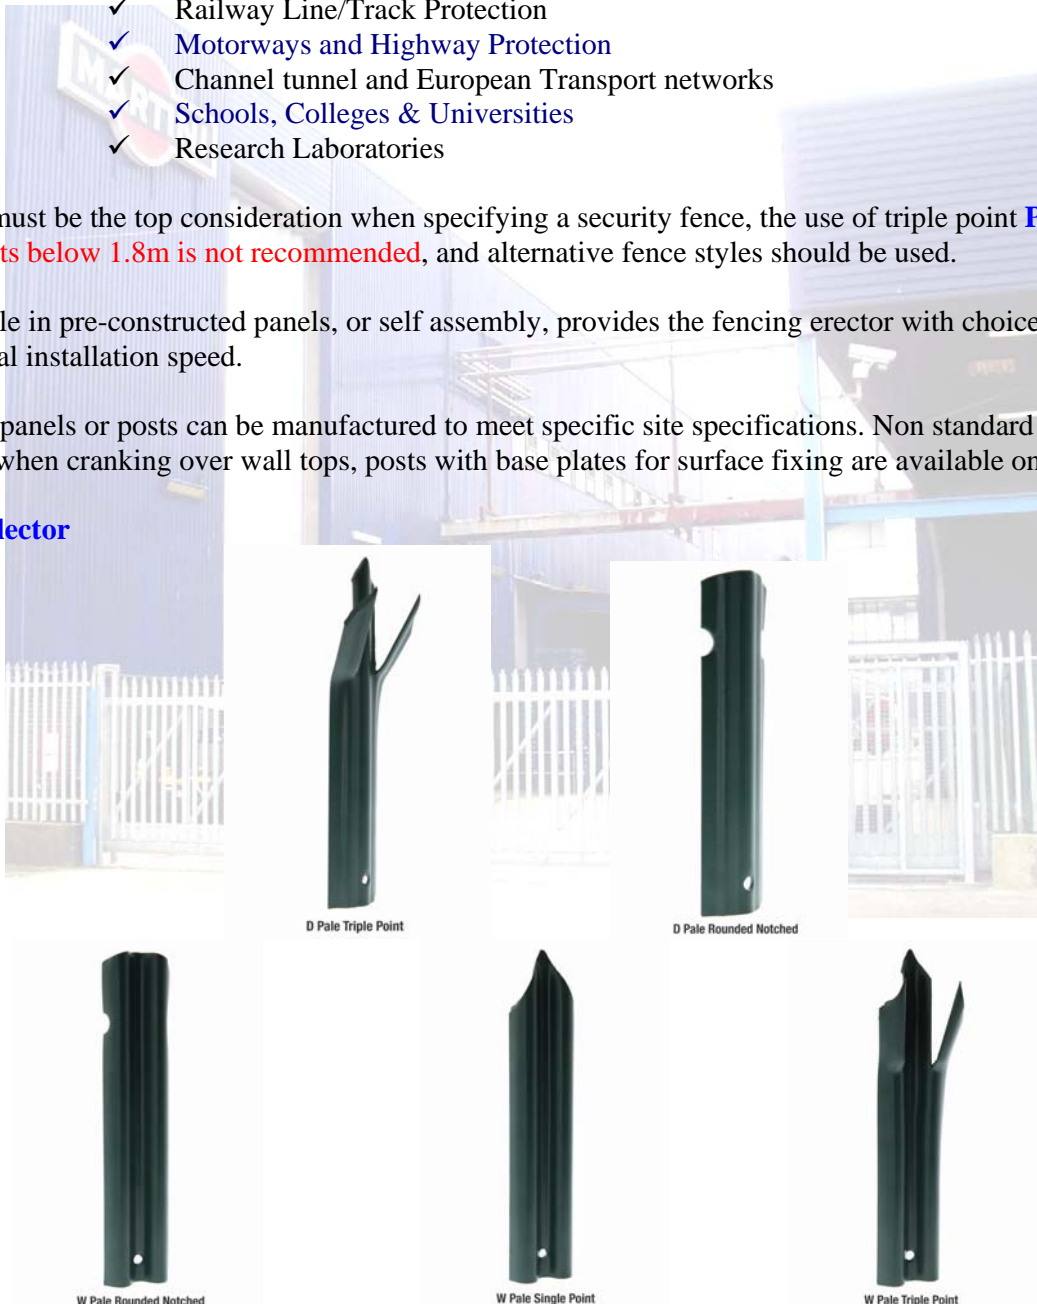

- ✓ BS 1722, Part 12 (GP) and (SP)
- ✓ BS EN ISO 1461
- ✓ Electricity Providers & Central Networks
- ✓ Transco Gas Pipeline and Terminal Protection
- ✓ Water Industry
- ✓ Telecoms Industry
- ✓ Police and Law enforcement
- ✓ Railway Line/Track Protection
- ✓ Motorways and Highway Protection
- ✓ Channel tunnel and European Transport networks
- ✓ Schools, Colleges & Universities
- ✓ Research Laboratories

Safety must be the top consideration when specifying a security fence, the use of triple point **Palisade** at heights below 1.8m is **not recommended**, and alternative fence styles should be used.

Available in pre-constructed panels, or self assembly, provides the fencing erector with choice of fast or typical installation speed.

Special panels or posts can be manufactured to meet specific site specifications. Non standard posts for use when cranking over wall tops, posts with base plates for surface fixing are available on request.
